Course Objective

The objective of this course is to help you learn and practice the basic elements of English that are necessary to have simple real-life conversations in an interesting and fun way. Each class will evolve around a familiar topic. The focus of every class will be to build vocabulary and conversation strategies, revisit grammar use and sentence structure. In every class, you will have many opportunities to speak with a partner, and with the teacher to practice the new language you have learned. Classroom atmosphere will be homey and friendly. Mistake correction will be gentle and the whole learning experience will be a fun one.

By the end of the course, I hope you will be able to sustain short conversations on a familiar topic.
